

Time Keeps Moving Right Along

A few words from

**BRANDON
HOLMES**

“Now that I have been on this Earth for 12 years, I look at life as a gift from God and I’m truly grateful He gave me life.”

Brandon is quite aware that there is so much going on with COVID-19, world problems and just the general presence of evil. When asked what a major thing he’d like to change, Brandon indicates, “I would change how much racial inequality there is in the world today”. Even with all that Brandon states, “I feel that God has been with me through thick and thin. I will always remember a song I sang in the children’s choir ‘Don’t Give Up On God ‘Cause He won’t Give Up On You.” I believe this is the way I live my life. I do not plan to give up but continue to trust in God.

“I believe that the most important thing to remember is to not focus on the negative but focus on the positive and enjoy them. I want to remind boys my age to keep your head up and never doubt who you are. My prayer for ‘My Boys’ is that God will help us throughout the day. Protect us from any evil and harm that may come our way. Help us become the best young men we can be and lead us Lord to grow up to become Your Servants.” In Jesus Christ’s Name – AMEN
